1. Claims 1,5 are rejected under 35 U.S.C. 103(a) as being unpatentable over Grey et al (5,397,338).

See previous office action.

Allowable Subject Matter

- 2. Claims 2-4,6-8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
- 3. Claims 9-11 are allowed.

The remarks made by applicant have been considered, however the above rejection is still deemed to be proper. The term 'fibromyalgia' is considered to be a broad term that encompasses muscle and joint pain as treated in the Grey patent. Further, the ordinarily skilled artisan would appreciate the common sensical notion that the electrodes can be placed in a variety of locations, depending on patient response to treatment. Also, the ordinary artisan would be well aware that square waves have been found to be useful in the treatment of a variety of patient conditions, including pain, and that the pulses shown in Grey are approximations of square waves resulting from capacitor discharge.

4. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

10/840,064 Art Unit: 3762

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
